FAMILY BUSINESS IS BIG BUSINESS

What are you doing today to create your family legacy?

If you're like me, I'm constantly thinking about helping my family and your family. I started my first business when I was 10 selling lemonade. My next business was babysitting at 16, after that in my 20's I sold Shoes, Furs and believe it or not 2 Kirby Vacuum Cleaners. In my late 20's I realized I loved Real Estate and I started my Career as a Keading Consultant, then Marketing Director, next Property Manager and I sold my first multi-million dollar property in my 30's to Professional Basketball Player, that was my aha moment! I knew I was great at listening, marketing, empowering, training and solving problems!!!

This statistic says it all – family business is big business. Those family businesses are a prime example that no dream or goal is out of reach. Get out there and get after it!

I have 5 different coaches which I allow to speak into my life for keeping me accountable. These individuals are not all friendship relationships and that works for me. I evaluate my goals, relationships and measure my growth monthly.
